

EX CAVA 2

TECHNICAL SPECIFICATIONS

Model	Ex Cava 2
Excavator size	> 25 ton
Length	4000 mm
Width	1100 mm (depending on models)
Height	4300 mm (depending on stroke)
Weight	3500 kg (depending on accessories mounted)

HYDRAULIC SYSTEM

Max pressure	200 bar
Flow requirement	280 lt/ min (depending on accessories mounted)

DRILL MAST

Model	N° 2 Speedy Drill 180 spring absorbing system
Stroke	3200mm
Hole diameter	30-40 mm range
Hole spacing	Between drifter 500 mm (250 mm between holes)

DRIFTER

Weight	50 Kg Doofor 530X
Shank	EX 22x108

CONTROL

For all function	Radio remote control
-------------------------	----------------------

KINEMATICS

Mast tilting	+/-15°
Rail inclination	+/-20° (more if needed available)
Mast slide	400 mm
Rail rotation	DX90°+ SX90° (180°)
Zoom	300 mm

ACCESSORIES

Shank lubrication system	Included
Hydraulic steel holder opening	Included
Compressor	Included hydraulic driven compressor 2.500 lt Min at 7 bar
Dust collector	Included with hood
Data logger	Included
